DETAILED ACTION

Claim Objections

1. Claim 6 is objected to because of the following informalities: Claim 6 can not depend on itself; however, further review indicates that claim 6 is dependent upon claim 5 (antecedent basis with regard to DCT coefficients). It is required that the applicants to correct the dependency of claim 6.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "a value approximate to" in claim 1 (ln. 5) and claim 7, (ln. 5), is a relative term which renders the claim indefinite. The term " a value approximate to" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.
